

**REMARKS**

Applicant acknowledges the allowance of claims 31 and 34-37 and appreciates the indication that claims 2, 18-30, 32 and 33 could be allowable if written in independent form or amended to overcome the rejections under 35 U.S.C. §112.

By this amendment the specification and the claims have been amended to conform in compliance with the Examiner's objections and rejections under 35 U.S.C. §112. By this amendment claim 1 has been amended to incorporate the limitation that the exterior of the hollow fishing lure has a phosphor coating on at least parts thereof. This is the essence of claim 2 which the Examiner has indicated as allowable. Claim 2 has been amended to a form setting forth the Markush group.

Since claims 3-17, the only claims that would remain under rejection in view of this amendment are dependent on claim 1, it is respectfully submitted that the application is in condition for allowance and such action is respectfully solicited.

Respectfully submitted,
